

Start

7:00

- Went over briefing slides
  - Summary of tasks
  - IoT devices
    - Will fill in more details later
  - Downloadable CDC
    - Has subparts that are VMs
      - VMs configure themselves
    - Firewall
      - Router/firewall
    - Desktop
      - Can connect to other devices
    - IoT Device
      - Skeleton for IoT device
    - CDC has something similar
      - <http://iserink.org/>
      - \*\*Contact Dr. Doug Jacobson
  - SSH
    - All three devices connected
  - Set-up virtual camera
    - Technical issues
      - Change BIOS settings
      - Install extra software
      - Figure out how to navigate to correct folders
    - Can't figure out how to make ISO persistent
  - Watch videos for additional help
    - <https://sdmay21-28.sd.ece.iastate.edu/demos.html>
  - CDC this Saturday
