

Start

7:00

- Went over briefing slides
  - Discussed the 3 options for the CDC
  - Talked about differences between ISEAGE and VirtualBox
    - Use scripts to auto-set up virtual device
      - Demonstrated our current script
    - Tested on VirtualBox
      - Successful
    - Tested in ISEAGE
      - Successful, but no internet connection (so limited)
  - Demonstrated red team scripts
    - Use brute force to try to login to the virtual device
