

start
7:30

- Started work on requirements assignment
 - Looked at previous team's for guidance
 - Requirements & Constraints
 - Discussed the difference between qualitative and quantitative requirements
 - Vulnerability disclosure procedures were researched in case a new vulnerability in the device we decide to purchase is found
- Contemplated a view shift, CDC personnel as the client rather than Daji (the professor)
- Discussed possible devices to pick from
 - Want a physical device different from virtual
 - Cheaper physical device
 - More "expensive" virtual device
- Decided to try to get access to a virtual machine
- Divided up devices to find vulnerabilities
 - Megan
 - TV and Speaker
 - Jake
 - Fire Alarm and Camera
 - Jacob
 - Thermostat and Router
 - Justin
 - Alarm and Doorbell
