

Team: sdmay22-14

Project Title: Development of IoT Components for CDC

Date: 10/20/21

Members:

Jake Martin, Megan Litterer, Jacob Foster, Justin Tyler

What we've accomplished in the past week:

Jake Martin - We presented and recalibrated/reprioritized what our Client wants

Megan Litterer - We presented and recalibrated/reprioritized what our Client wants

Jacob Foster - We presented and recalibrated/reprioritized what our Client wants

Justin Tyler - We presented and recalibrated/reprioritized what our Client wants

What we're planning to do in the coming week:

Jake Martin - With with Justin on script to configure and IoT device

Megan Litterer - Work with Jacob on a website.

Jacob Foster - Work with Megan on a website. Potentially meet again during the week

Justin Tyler - Research scripting and work with Jake on creating a script to configure an IoT device

Issues we had in the previous week:

Our priorities with our client were not synced. They *should* be now.
